---

Rich Contracting is a family owned and operated business. My name is John Rich. I work along with my two sons, Olin and Erik. We are hands-on contractors with a focus on high quality product and customer service. We have been building on Whidbey Island since 1976, resulting in a lifetime of experience in all phases of construction, coupled with an eye for exceptional detailing. Working as a team with clients, architects and interior designers, we are able to serve the most discerning clients.
